

Energy Transition Roundtable

PROJECT SNAPSHOT

This project aims to accelerate the region's energy transition by empowering stakeholders through a comprehensive learning platform. By offering professional development, networking opportunities, and a curated resource library, the project fosters a collaborative environment for knowledge sharing and capacity building.

This project cultivates a strong network of informed stakeholders who can drive impactful outcomes for a greener future. Imagine a community of energy leaders across Southeast Asia, equipped with the knowledge, connections, and resources needed to propel the region's transition towards a more sustainable energy future – that's the power of this collaborative learning platform.

CONNECT

ETP'S CONTRIBUTION

This project tackles Southeast Asia's energy transition through a multifaceted approach, empowering leaders and stakeholders in Indonesia, the Philippines, and Vietnam.

KEY OUTPUTS

Building Capacity: Tailored workshops and seminars equip participants with the skills and knowledge to lead sustainable and innovative energy initiatives.

Fostering Collaboration: A dedicated online networking platform facilitates connections, encouraging collaboration and the development of collective solutions.

Knowledge Hub: A comprehensive resource library serves as a knowledge hub, empowering informed decision-making and fostering thought leadership in Southeast Asia's energy transition journey.
